Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit:

The amendment filed September 25, 2003 has been received and entered into the file.

Applicant's arguments filed September 25, 2003 have been fully considered but they are not deemed to be persuasive.

Claims 1-44 are presented for examination.

Applicant's election without traverse of Group I, claims 1-14 and 37-41 in Paper No. 10 is acknowledged.

Claims 15-36 and 42-44 reading on non-elected subject matter are withdrawn from consideration.

This application contains claims 15-36 and 42-44 drawn to an invention nonelected with traverse in Paper No. 10. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim 12 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit:

Claims 12 recites a substitution wherein Y=Hydrogen. Examiner notes the possibility for employing hydrogen at Y was precluded by the amendment filed September 25, 2003. Thus, claim 12 lacks the antecedent basis, and is properly rejected as indefinite under 35 USC 112, second paragraph.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-6 and 9-10 are rejected under 35 U.S.C. § 102(b) as being anticipated by Misra et al or Rukunga et al or Mar et al.

The following is a quotation of 35 U.S.C. § 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit:

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

Claims 1-14, 37-38 and 41 are rejected under 35 U.S.C. § 103 as being unpatentable over Misra et al, Rukunga et al, Mar et al and Applicants' admission on the record.

Misra et al, Rukunga et al, Mar et al teach; and Applicants' admit on the record (see specification at page 24 (spermidine and spermine)) the claimed compounds as old and well known in combination with various pharmaceutical carriers and excipients in a dosage form. These medicaments are taught as useful for treating various maladies. Claims 2-3, 7-8, 12, 37-38 and 41, and the primary references, differ as to:

1) the specific recitation of those compounds herein recited.

The skilled artisan possessing a compound for a therapeutic use possesses that compounds, analogs, homologs, acids, esters, salts and bioisosteres for the same use. In the instant case, the Examiner cited prior art teaches natural compound, and isomers for those compounds as residing within the recited claims scope. Misra et al, Rukunga et al, Mar et al teach various positional isomers residing within the claimed invention (see budmunchiamine K, a, b, and c). Possessing these prior art teachings, the skilled artisan would view those compounds herein recited as obvious, Absent limitations distancing the presented claims from those compounds residing in the prior art, or

Art Unit:

obvious variants of compounds residing in the prior art, the presented claims remain properly rejected as obvious.

Claims 39 and 40 are objected to as depending on rejected claims.

RESPONSE TO ARGUMENTS

Examiner notes 3 separate 1449 forms in the application, a copy of each is submitted herein.

Examiner notes the instant claims are directed to substituted budmunchinines, a class of old and well known natural compounds. Additionally, applicants elected compound SL-11239, in paper 10, in response to the restriction, and election of species for examination on the merits (paper 10). If the skilled artisan views this compound wherein the nitrogen substituted by an alkylamine is numbered as one(1); the compounds set forth in claims 1-14, 38, 38 and 41 are either anticipated, or obviated by those compounds disclosed in the Examiner cited prior art. Examiner assumes substituant Y fails to establish a bridge between N and A₃.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

Art Unit:

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
